

## Coming soon: new innovations from Ziptrak®

### You requested it. They've developed it.

There's lots of valuable new features on the horizon for Ziptrak® outdoor blinds, enhancing the system with functional, robust and intuitive improvements. We look forward to releasing the items below in the first half of 2019, which will provide a stronger Ziptrak® with superior appearance and more options.

#### NEW PELMET

#### New "square" design

- Extruded aluminium
- Small and large size
- Faster and safer installation
- Optional brush insert on front and rear for ultimate seal, preventing dust and insects.

#### NEW BOTTOM BAR

#### Superior strength and rigidity

- Wider and taller for increased strength and rigidity. Perfect for super-sized blinds!
- Compatible with the Centre-Lock-Release system, for easy and fast operation.
- Available in both manual (spring-balanced) and motorised options for your customer.

NEW

Heavy Duty

Standard

#### NEW FACE FIX CHANNEL

#### Superior strength

- Will replace the current version
- Increased wall thickness for additional strength
- Deeper channel for more track adjustment
- Will be available in all standard colours at 2.5m and 3m lengths, plus Mill Finish at 5.5m
- No price increase
